Scoring:

Electronic scoring will be used at this event. The paper scorecard will be the final determinant in any discrepancy between the electronic scorecard and the paper scorecard for the value of each arrow. Make sure to fill in your scorecard completely and legibly. A miss is marked on the scorecard as an "M". In outdoor competitions, the inner ten-ring is marked on the scorecard as an "X". Arrow values may not be changed once the arrow is removed from the target; however, addition may be corrected at any time before the scorecard is signed and submitted. Scorecards shall be submitted to the scoring team upon completion of the round, no later than one hour after the end of shooting. The scoring team is not obligated to correct mistakes found on a scorecard. Please be sure to check and double check scorecards before submitting!
